

## HWR-Kältespray

Electronics – Engineering – Chewing gum remover

Item no. 5200

Due to its high cooling performance, **HWR-KÄLTESPRAY** is suitable for

- diagnosing work in electrical engineering,
- the assembly of components in sensible tolerance areas,
- the removal of chewing gum from upholstery and carpets.

### HWR-KÄLTESPRAY

- in seconds it cools down to approximately  $-50\text{ }^{\circ}\text{C}$ ,
- is electrical non-conducting,
- is neutral with glass, plastics, rubber and metals.

### Areas of application:

#### Electro-technology

Identification of objectionably working components, transistors or solder joints.

#### Engineering:

Assembly of components with minimum tolerances.

#### Upholstery / carpets:

To remove chewing-gum spray shortly and lift off the solidified material.

### Characterisation:

#### Appearance:

Colourless aerosol.

#### Ingredients:

Preparation of aerosol propellants.

Free of CHC and CFC.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
